**AS A VALUE-ADDED
INTEGRATOR, WE CAN OFFER
YOU A WIDE SELECTION OF THE
HIGHEST PERFORMANCE
SYSTEMS THAT ARE AVAILABLE
IN THE MARKET TODAY**

THE COMPANY

MACKINS provides a complete range of Building Automation services through a highly experienced Engineering & Project Management team fully complying to time, cost and quality requirements of projects.

MACKINS has delivered exceptional performance and earned a reputation as a highly dependable Specialist MEP Contractor in Qatar. We also offer our clients a high performance facility operation that improves productivity; reduces energy consumption & operating costs thereby providing long-term value.

MACKINS Maintenance Division is one of the most active maintenance contractors in Qatar, specializing in Facility Management & maintenance of MEP Building Services including Mechanical, Electrical and Plumbing equipment.

“

**INTRODUCING MACKINS, THE
ULTIMATE SOLUTION OF ALL YOUR
ENGINEERING NEEDS.**

**WE HAVE BUILT THE TRUST
THROUGH YEARS WITH EXCELLENCE
AND PROFESSIONALISM**

”

OUR MISSION

To create a unique alchemy of outstanding products, operational excellence, path breaking customer service, and compelling marketing.

OUR VISION

A label, 'MACKINS', that is trusted and respected worldwide.

OUR VALUES

- Dependability
- Reliability
- Loyalty
- Commitment

OUR SERVICES

We offer a comprehensive service covering consultancy, design, project management, engineering, installation and all the essential support services. 24-hour coverage comes as standard, wherever you are in Qatar, as well as a controls response center offering remote dial-in and technical assistance.

We also pride ourselves on our independence so we can give you impartial advice as well as a fast and efficient service, whatever system you require.

- Building Management System (BMS)
- Extra Low Voltage System (ELV)
- Fire Detection & Suppression System
- Integrated Facility Maintenance (IFM)
- Energy Management System
- Talent Sourcing (Oil And Gas)
- Panel Integration & Automation

BUILDING MANAGEMENT SYSTEM (BMS)

We provide a complete BMS solution that controls and monitors the building’s mechanical and electrical equipment such as Ventilation, lighting, power systems, fire systems and security systems.

They help:

- Monitor the use of facility infrastructure - power, space, equipment, building systems and even security - across geographies, from one location, and real-time.
 - Raise operational efficiencies with a combination of cutting-edge hardware and proprietary software.
 - Network monitor and control individual components or equipment in a large, internet like universe.
 - Sharpen your business intelligence in areas that matter, i.e. cutting down waste across your enterprise; optimal use of resources; and reducing day-to-day operational expenses.
- Our Integrated BMS and consultancy services are all designed towards helping clients operate their facilities in the most efficient and economical way possible. We are excelling experts in:
 - DESIGN
 - SUPPLY
 - INSTALLATION
 - TESTING
 - COMMISSIONING
 - MAINTENANCE
 - TROUBLE SHOOTING

We are an authorized representative of **Honeywell** USA. We have extensive experience in design, engineering, testing and commissioning of Building Management.

EXTRA LOW VOLTAGE SYSTEM (ELV)

Using the highest quality panel components to ensure the maximum reliability, safety and quality standards, our qualified staff of engineers and technicians will handle the project details from design to manufacturing as well as after sales support services.

- LIGHTING CONTROL SYSTEM
- ACCESS CONTROL SYSTEM
- ENERGY MANAGEMENT SYSTEM
- EMERGENCY LIGHTING SYSTEM
- PUBLIC ADDRESS AND VOICE ALARM(PAVA) SYSTEM
- PLC/SCADA INSTRUMENTATION
- STRUCTURED CABLING
- SMATV/IPTV SYSTEM
- INTERNAL AND EXTERNAL LANDSCAPE LIGHTING
- SYSTEM INTEGRATION
- NETWORK COMMUNICATION
- VIDEO/AUDIO MANAGEMENT SYSTEM
- GUEST ROOM MANAGEMENT SYSTEM
- VIDEO WALL/LED DISPLAY
- INTRUSION DETECTION SYSTEM
- LIFE AND SECURITY SYSTEMS
- CCTV
- GATE BARRIERS
- AUTOMATIC & SLIDING DOORS
- PARKING MANAGEMENT SYSTEM

FIRE DETECTION & SUPPRESSION SYSTEM

MACKINS Fire Protection System Division is specialized in Design, Engineering, Integration, Testing, Commissioning and Maintenance of the following Fire Protection Systems.

Fire Detection and Alarm System

Automatic Sprinkler System

Fire Hose Reel and Hydrant System

Emergency Evacuation System

Fire Suppression and Fighting System

FM200-Clean Agent System

Central Battery system

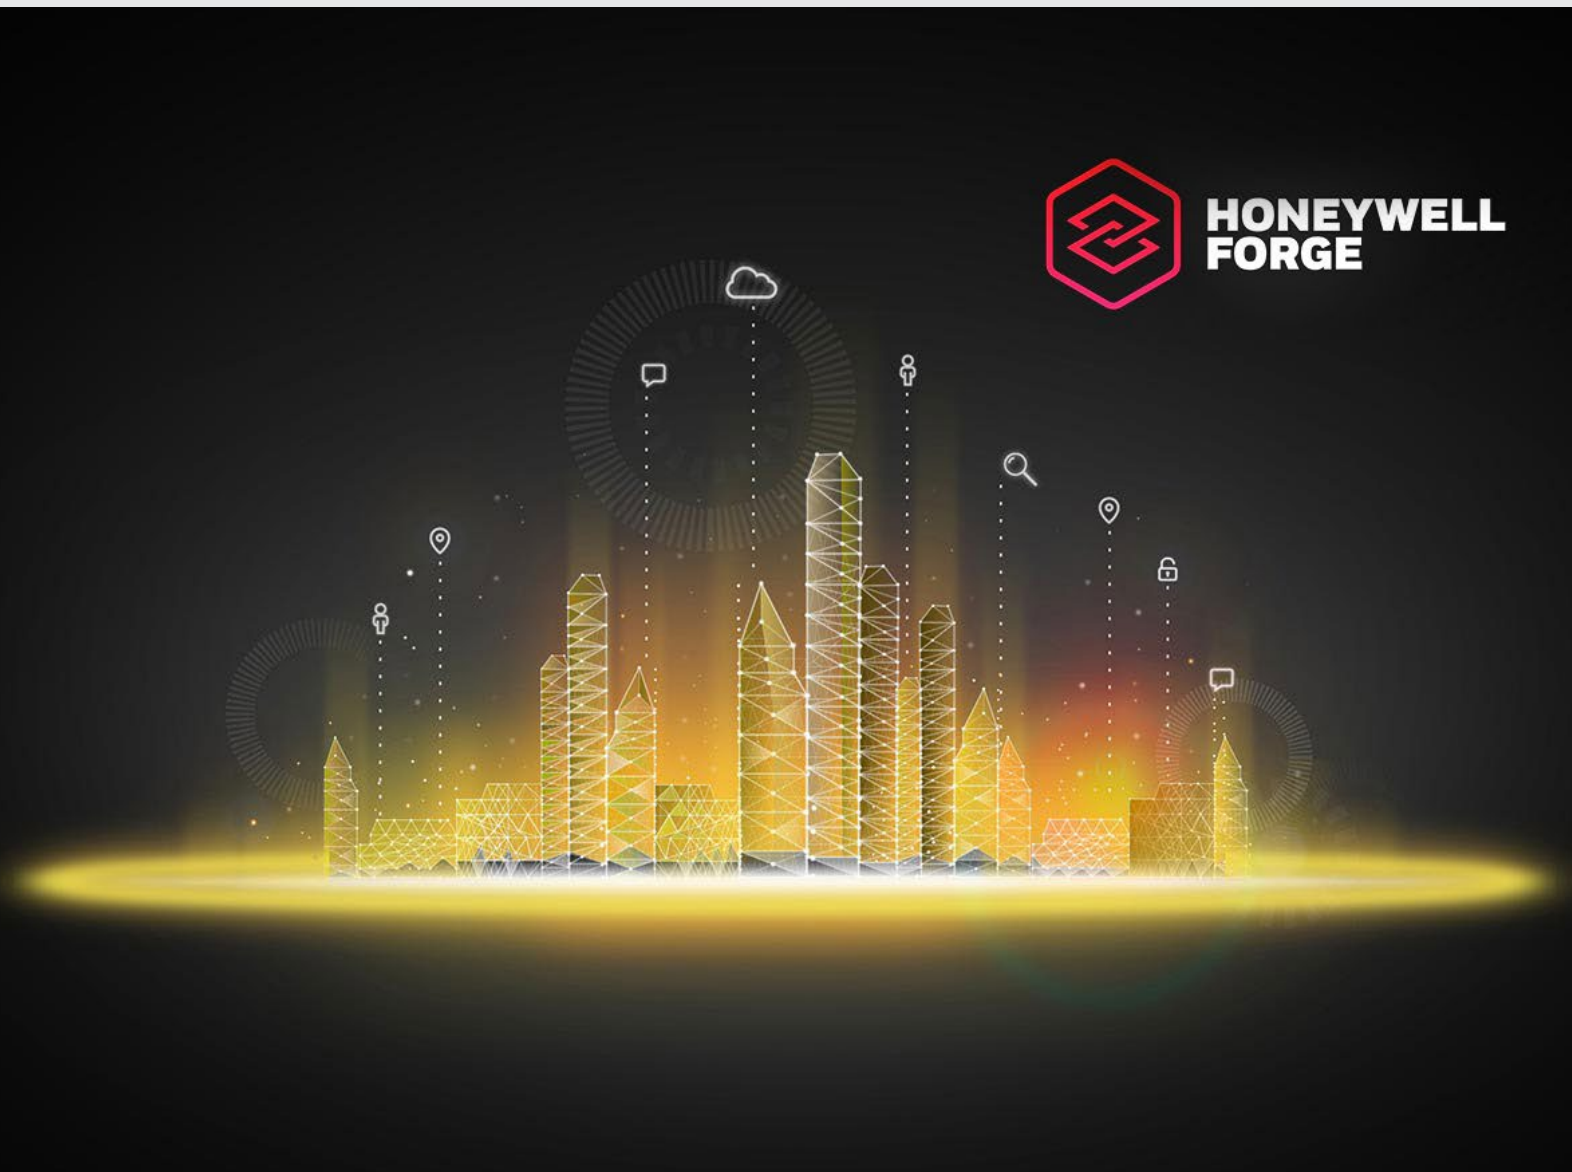

INTEGRATED FACILITY MAINTENANCE (IFM)

We take pride in employing the best workforce in our field of expertise and technical knowledge that enable us to execute critical projects & provide maintenance services in specified time schedule without compromising on quality and safety. We are an equal opportunity employer committed to Health, Safety and Environment responsibility of our employees. A hand on and very capable team comprising of Managers, Engineers, Supervisors and Technicians who are competent across all areas of property maintenance 24x7.

- Pre-Engineering, Feasibility Study and Report Submission
- Technical Coordination and Supervision
- Preventive, Predictive and Corrective Maintenance of:
 - Electrical System and Equipment's
 - HVAC Equipment's
 - Plumbing & Drainage Services
 - Fire Protection System
 - Building Management Systems
 - Extra Low Voltage System
- Annual Maintenance Services for utilities and Equipment's

ENERGY MANAGEMENT SYSTEM

An innovative SAAS application for Building Portfolio.

Being a premium partner of **Honeywell** we would like to introduce the new technology **Honeywell** FORGE. It is an artificial intelligence and Machine Learning based Software solution for buildings.

As the world is changing to digitalization, we are pursuing for the digitalized maintenance of all buildings in Qatar. It helps the building owners to save Approx. 20% of their over all Expenditure and Predictive maintenance of the Equipments.

TALENT SOURCING (OIL AND GAS)

TALENT SOURCING – An engineering workforce solutions for oil and gas. We are the experts in sourcing, screening, choosing and on boarding qualified personnel to meet your human resource need.

Our vision to provide exceptional technical roles in Oil and Gas industry in Middle east. We are proud to assist our clients from the engineering phase of their projects through to your operations.

OUT SOURCING TALENT RANGES AS FOLLOWS:

- Manager(All Discipline)
- QA/QC inspector civil
- QA/QC inspector mechanical
- QA/QC inspector Electrical and E &I
- QA/QC inspector welding
- Engineers (All discipline)
- Civil, mechanical and Electrical supervisors
- Piping supervisor
- Civil Foreman
- Mechanical and Electrical Foreman.

OTHER CATEGORIES:

- NDT Technician
- Welder
- Fitter
- Rigger
- Scaffolder
- Electrician
- Insulator/Duct worker

PANEL INTEGRATION & AUTOMATION

Mackins panel division provides solution for control panels in commercial & industrial applications. We design, manufacturing & factory testing for wide range of Control panel with extreme quality as per Customer requirement in line with QCS standards.

The panel integration facility holding very prestigious ISO Certifications. We meet the requirements for Oil & gas industries and other companies as we have air conditioned factory with well trained technicians. The facility of integration and staging includes conference room, power distribution (Various ratings), various testing tools, Test jigs & Simulators, High speed Wi-Fi and work stations for software FATs. We manufacture & integrate below panels.

- DDC/FCU PANELS
- MCC PANELS
- VFD panels.
- PLC PANELS
- FEEDER PILLER PANELS.
- SYSTEM & MARSHALLING PANELS.
- NETWORK PANELS.
- IRP PANELS& SYSTEM CONSOLES.
- DCS PANELS.
- PDB PANELS

LIGHTING SOLUTIONS

We are a team of passionate and knowledgeable lighting professionals, up to date on technology and having worked on various projects with latest, fascinating and innovative technology and our experience for over a decade on various projects, helps us in better understanding of the client requirements.

Mackins specializes in various lighting applications like

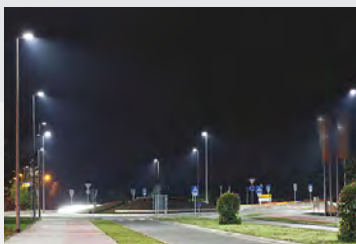

Retail Lighting

Hospitality Lighting

Office Lighting

Infrastructure Lighting

Landscape Lighting

Architectural Lighting

Industrial Lighting

Sports Lighting

Pharmaceutical Lighting

IN-HOUSE LIGHTING DESIGN CONSULTANCY

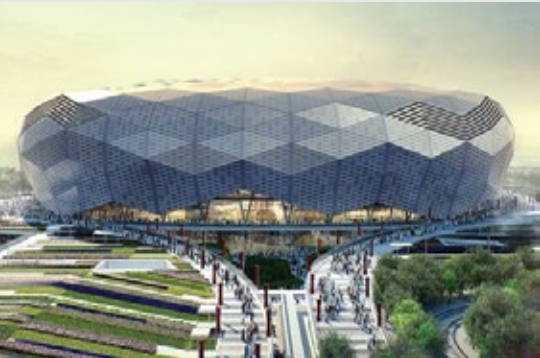

Having access to latest developments in lighting technology and trends, Mackins continues to provide architects and designers the best solutions through our worldwide network of suppliers and manufacturers. Those who have worked with us know our products perform both functionally and aesthetically in a way that contributes fundamentally to the overall design. Our experienced lighting designers have an acute understanding of the special challenges facing design professionals. At Mackins you will find people who share your concerns and goals.

We Deliver The Following

- Lighting Design
- 2D Lighting Layouts
- AutoCAD Lighting Layouts
- 2D & 3D Simulations
- Lighting Renderings
- Bill Of Quantities
- Dialux Based Lighting Calculations

MAJOR PROJECTS

QATAR FOUNDATION STADIUM

Scope
Supply, testing & commissioning of BMS
Client
